

FIX HARRISBURG

Bipartisan solutions deserve a vote

If it feels like not much gets done in Harrisburg, you're right!

PA is one of the most expensive, least effective legislatures in the entire country. In recent legislative sessions less than 7% of bills introduced have been given a final vote. Many of those name bridges or roads. And, it's getting worse every year!

Other states, even ones with part-time legislators, get things done. Why can't that happen in PA?

Right now, just a few leaders have complete control over what bills get a vote or what gets funded. They block reforms, cater to wealthy donors and ignore the rest of us.

This is an issue that impacts every public policy pursuit in the Commonwealth of Pennsylvania. To change it will require pressure from every corner of PA between now and January 1, 2023

Join us at FixHarrisburg.com to make government work for all Pennsylvanians.

#FixHarrisburg is a campaign organized by Fair Districts PA and League of Women Voters of Pennsylvania.

#FixHarrisburg

This is a BIG year in PA politics.

This is the year to elect legislators who really listen, and demand rules that allow them to solve real problems.

The legislative process in Harrisburg is broken. Let's change that.

If it seems like you've heard the same campaign speech before, you're probably right.

Current legislative rules make it almost impossible for good solutions to get a vote. Committee chairs and legislative leaders can - and often do - ignore us all completely.

This is a BIG election year in Pennsylvania.

This year we'll elect a new governor and a US Senator. PA has new district maps with more than 35 open House seats and 5 open PA Senate seats. Every PA Congressional and State House representative is up for election, along with half our PA senators. **Your vote this year can make a BIG difference.**

Your voice can help change the way Harrisburg works.

- Visit Vote411.com to register to vote or check your voter registration.
- Text **FIXHARRISBURG** to 94253 to sign the petition.

It's time for a government that works for ALL of us. Visit FixHarrisburg.com to learn more.
